

**Boston Children's Hospital**  
Until every child is well™

**We were one of a kind and now we will be **TWO** of a kind!**

## **WE ARE HIRING!**

Our internationally recognized INPATIENT Augmentative Communication Speech Language Pathology Service is expanding!

We are seeking an ASHA CERTIFIED Speech Language Pathologist for a NEW full time position as part of a dynamic patient care team in the intensive care and acute care settings. Duties include full time clinical case load with:

- bedside AAC assessment and intervention in the *Pediatric Intensive Care Units* and all hospital wide *Acute Care Services*;
- providing pre-operative AAC assessment and planning including *Message Banking Services* as appropriate
- Family and bed side provider training/in-service/collaboration
- frequent in-service training to numerous hospital services throughout the Boston Children's Hospital Medical Center
- participation in unit rounds, specialty team rounds and case conferences
- participation in innovations projects focused on improved patient care and outcomes
- participate in all hospital wide initiatives focused on patient provider communication

The appropriate candidate is experienced in pediatric hospital based service delivery, has had a significant experience in the broad scope of augmentative communication tools and strategies (no tech solutions through dedicated high tech solutions), have ASHA Clinical Competency Certification, possess or is eligible for Massachusetts State Licensure and demonstrate strong independence, flexibility and collaborative team focus. All inquiries directed to John Costello, Director of Augmentative Communication Program @ [john.Costello@childrens.harvard.edu](mailto:john.Costello@childrens.harvard.edu)

**PLEASE PUT 'INPATIENT AAC POSITION' in the subject line!**
